# Design Leadership Programme

Accelerate your career,  
maximise your potential,  
increase your impact.

# What?

PARK Design Leadership programmes are designed for busy design and non-design professionals. That's why a few things are very important to us:

- ◆ Learning while working
- ◆ Intensive interaction between student & tutor
- ◆ Fresh content, straight from reality
- ◆ Low on theory, high on practice
- ◆ Direct improvement of daily work
- ◆ Fun. Or let's say 'intrinsic motivation'

The content we offer covers a wide variety of design management and leadership topics. All of these are relevant for all design disciplines like product, UX, service and social design.

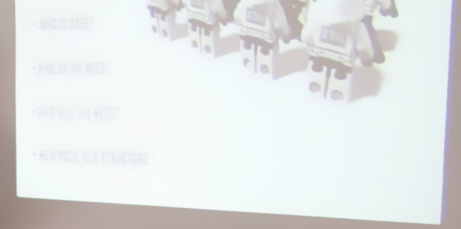

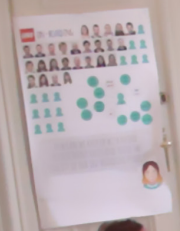

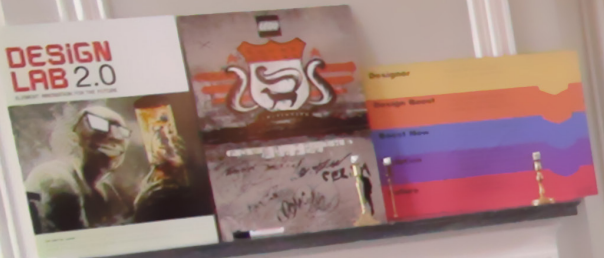

# Why?

Because your organisation needs strong design leadership that can steer design into a direction that is good for your organisation, your customers and for the planet.

PARK Academy shares practical knowledge, tools and methods to boost the value of design, with directly noticeable outcomes.

- ◆ We are founders of the LEGO Design Academy
- ◆ We are endorsed by design councils around the world
- ◆ Our tutors spend 75% of their time consulting and coaching design leaders at organisations
- ◆ The tools that we share, are all proprietary and used in our own practice
- ◆ Our learnings apply to any small, medium and large profit and none-profit organisations
- ◆ We actively connect our 2.000+ alumni for life long learning and sharing

...and **because it works**. 89% of graduates state that the Academy helped them further their career and 86% of graduates intend to return for further education in the future.

## Livebook

Our Design Leadership Programmes are based on the principle of blended learning from the get go in 2003. To facilitate this approach to education that combines online educational materials and opportunities for interaction online with physical place-based classroom methods, we created the Livebook.

A unique and customised digital platform available for the participants during and after the PARK Academy programmes. The Livebook is your personal coach, reminder, inspirator and repository of all your relevant Design Leadership content, your personal learnings, your assignments and reflections.
